Dynamat Xtreme is the highest efficiency sound deadening material available and the most effective product for stopping noise and vibration. Xtreme should be used on any and all interior sheet metal or fiberglass of your vehicle. The aluminum constraining layer is very moldable and conforms easily to all interior surfaces. The extra sticky patented butyl layer is formulated with VECTOR™ chemistry for the most amazing energy conversion capabilities ever. Use it on doors, floors, roofs, hoods and trunks for a really quiet, cool and incredibly solid ride.

At Dynamic Control, we are constantly evaluating products in the lab and through "real world" road testing to insure that all of our products perform better than any other. Dynamat has proven to be the highest efficiency damping material available on the market. Dynamat gives your vehicle a quiet, luxury car feel.

ADD EVEN MORE QUIET

HOODLINER

Apply The Hoodliner to the underside of your hood to absorb engine noise and control heat. If a black finish is desired, Dynaliner can be used. Both products are heat resistant.

DYNAPAD

Replace Dynaliner with DynaPad on floor, firewall and trunk floor when a heavy duty barrier is needed. Common applications include: high performance exhaust noise & car audio installations.
